Add WeChat powcoder

Teaching Method

- Your peers help you to understand the concepts through discussion.

Assignment Project Exam Help

- Lecture includes a series of discussions on concepts.

<https://powcoder.com>

Add WeChat powcoder

- The lecturer guides the discussion.

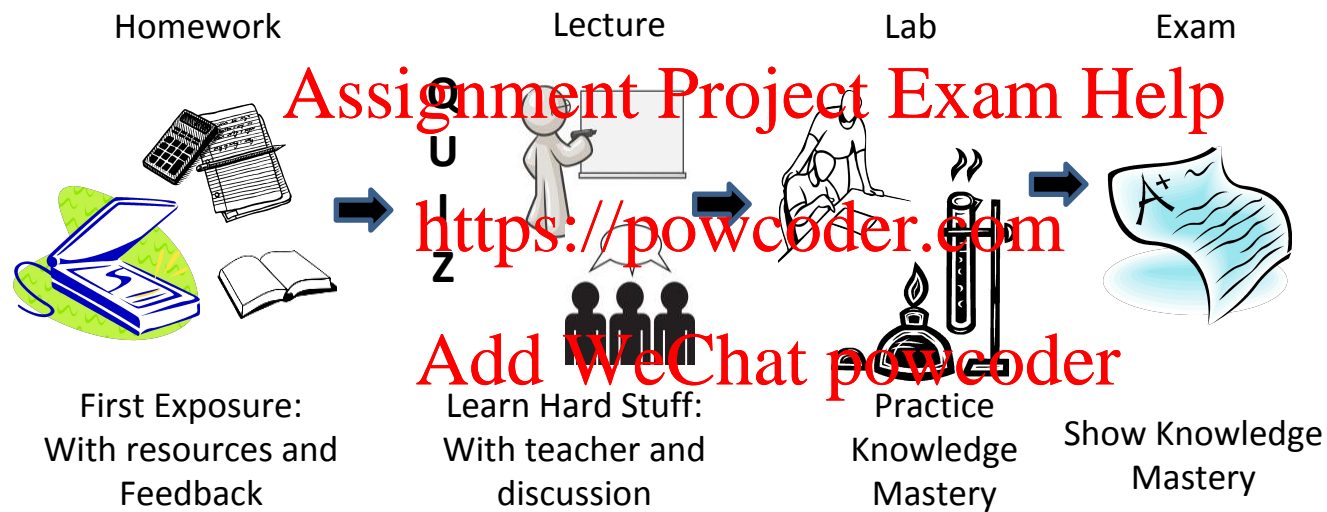

Prof Eric Mazur, Harvard University

Traditional Teaching Method

Peer Instruction – Full Picture

Discussion Questions – Scenario

- Lecturer shows a question.
- Student answers using the response system. (no discussion – individual vote).
- If uncertainty
 - Group discussion (2-3 students) – need to get a consensus.
 - Student answers using the response system (group vote – everyone in the group still needs to vote).
 - Class wide discussion.

Why The Scenario?

■ Pose carefully designed question

–Solo vote: Think for yourself and select answer

- Checks your understanding and create an opinion to base your discussion during the group discussion, if needed.

–If needed

- Discuss: Analyze problem in teams of 2-3

–Practice analyzing, talking about challenging concepts
–Reach consensus

- Group vote: Everyone in group votes

–You must all vote the same

–Convince your group or get convinced by your group.

- Class wide discussion.

Practice

Using FLUX

- Visit <https://flux.qa> presenter/dashboard on your internet enabled device
- Log in using your Authcate details
- Touch the + symbol
- Enter the code for your lecture
- Answer questions when they pop up.

Multiple choice questions

Q1: $1 + 1 = ?$

Hint: There are 10 types of people in this world. Those who understand binary and those who don't.

- a. 2
- b. 10
- c. 11
- d. Not sure

<https://powcoder.com>

Add WeChat powcoder

Multiple choice questions

Q2: If the following equations are true,

$$5 + 3 = 28$$

$$9 + 1 = 810$$

$$8 + 6 = 214$$

$$5 + 4 = 19$$

Assignment Project Exam Help

<https://powcoder.com>

what is $3 + 2$? Add WeChat powcoder

- a. 5
- b. 15
- c. 11
- d. 55

Text-based poll

Q3: Write the name of your favourite fruit.

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

Q4. What database management systems are you most familiar with?

Assignment Project Exam Help

- a. Oracle <https://powcoder.com>
- b. MySQL
- c. MS Access **Add WeChat powcoder**
- d. SQL Server
- e. others
- f. I am not familiar with any database management systems.

Is it bad to get it WRONG?

NO

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

It is better to be WRONG and understand why you are WRONG, rather than, getting the RIGHT answer but NOT knowing WHY it is the RIGHT answer!

Why Peer Instruction?

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

- Learn/practice hard concepts in class
- Build and test one's understanding in a supportive environment.
- Develop critical thinking, communication and reflection skills.
- Engage students to take ownership of their learning.

Things are different...

- Pre-lecture activities are crucial.
 - Your lecture experience will depend on your preparation.
- Attending lectures is very important
- My lecture slides are NOT your notes!
 - Create your own notes during pre-lecture reading.
 - Annotate difficult concepts, revisit the annotation after lecture/tutorials.
 - It is better not to take notes during lecture. You should be prepared before the lecture, then think, discuss and ask questions during lectures.

Study Program

| Week | Activities | Assessment |
|------|---|--|
| 0 | | No formal assessment or activities are undertaken in week 0 |
| 1 | PART I: The Relational Model Introduction to Database | |
| 2 | Relational Model | Pre-lecture Quiz Questions due weekly prior to the lecture (Weeks 2 to 11) |
| 3 | PART II: Database Design Conceptual model - E/R Diagram | |
| 4 | Logical model - E/R Transformation | |
| 5 | Normalisation | |
| 6 | Database Implementation (DDL) | Assignment 1 A due |
| 7 | PART III: The SQL Database Language SQL I | |
| 8 | Update, Delete and Transaction Management | Assignment 1 B due |
| 9 | SQL II | |
| 10 | SQL III | |
| 11 | PART IV: Web Database Implementation Database Connectivity and Web Technologies - Querying Data | Assignment 2 due |
| 12 | Web Technologies - Manipulating data | SQL Test |

University

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

Overview

- An overview of relational database management systems (RDBMS)

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

Let's travel back to 1960s

- Relational databases do not exist yet
- Let's create a database to record the information on Monash students
 - What kind of approaches do we have?
 - What kinds of problems are involved?

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

What is a database?

database

/ˈdeɪtəbeɪs/ 

noun

plural noun: **databases**

a structured set of data held in a computer, especially one that is accessible in various ways.

"a database covering nine million workers"

Assignment Project Exam Help

How do we

structure our data?

<https://powcoder.com>

Add WeChat powcoder

We can run various queries/questions without the need to change the structure of the database.

How do we structure our data?

- How easy is it to answer a number of queries?
- What kind of guarantee do we have from the systems on data integrity after a modification
 - (eg deletion, update or insertion of one or more records to the system?)

Data Redundancy – a student data spreadsheet

| STU_NBR | STU_LNAME | STU_FNAME | STU_DOB | UNIT_CODE | UNIT_NAME | ENROL_YEAR | ENROL_SEM | MARK | GRADE |
|----------|-----------|-----------|-----------|-----------|-------------|------------|-----------|------|-------|
| 11111111 | Bloggs | Fred | 1-Jan-90 | FIT1002 | Computer Pr | 2013 | 1 | 66 | C |

Assignment Project Exam Help

<https://powcoder.com>

What would happen if we delete Fred's enrolment in FIT1002? What happen to the details of FIT1002 information such as its name?

Add WeChat powcoder

How would you update the mark for Cindy's enrolment in FIT1001? (Imagine the spreadsheet contains thousands of students and each student has 12 enrolment entries).

How would you introduce a new unit, eg FIT2133 Programming in Python into the spreadsheet when no student is enrolled to the unit yet?

Why do we have so many problems in the previous example?

- The structure of the data causes some data management problems or data anomalies.
- The software was not designed to deal with the type of reporting required.

Add WeChat powcoder

How do we solve it?

| STU_NBR | STU_LNAME | STU_FNAME | STU_DOB |
|----------|-----------|-----------|-----------|
| 11111111 | Bloggs | Fred | 01/JAN/90 |
| 11111112 | Nice | Nick | 10/OCT/94 |
| 11111113 | Wheat | Wendy | 05/MAY/90 |

1970: Relational model

- An IBM scientist
- Proposed and developed the relational model
- Also proposed normalisation forms
- Resistance from IBM to implement his model
- Turing award (1981)

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

E.F. Codd
(1923-2003)

- Relational model in week 2
- Normalisation in week 5
- E. F. Codd, “A Relational Model of Data for Large Shared Data Banks”, *Comm. Of ACM*, 1970

1974: SQL

- Developed at IBM
- Initially called SEQUEL (**S**tructured **E**nglish **Q**Uery **L**anguage)
- Doesn't strictly follow Codd's theory
- Oracle: the first commercially available implementation of SQL in 1979

Donald Chamberlin (1944-)

- SQL in weeks 7, 8, 9 & 10
- D Chamberlin, R Boyce, “**SEQUEL: A structured English query language**”, *ACM SIGFIDET*, 1974

Raymond Boyce
(unknown - 1974)

1976: Conceptual model

- Proposed Entity-Relationship Model (ER diagram)
- A systematic process to design a relational database
- Database design process in week 3 & 4
- Peter Chen, “The entity-relationship model—toward a unified view of data”, *ACM TODS*, 1976

Peter Chen (1947 -)

1979: Oracle

- Inspired by Codd's ideas
- First commercial release in 1979
- Most popular RDBMS
- Introduced PL/SQL in 1988
(Procedural Language/SQL)

Assignment Project Exam Help

<https://powcoder.com>

Add WeChat powcoder

Larry Ellison (1944 -)

- Oracle SQL in week 7, 8, 9 & 10

1981: Transactions management

- Introduced transaction management
- Turing award (1998)
- Presumed lost at sea in 2007

Assignment Project Exam Help

<https://powcoder.com>

- Transaction management in week 8

Add WeChat powcoder

Jim Gray (1944 -)

- Jim Gray, “The Transaction Concept: Virtues and Limitations”, *VLDB*, 1981

Data Management Today

■ Relational databases are still very popular. But ...

- Social Networks (Facebook, Twitter, Foursquare etc.)
- Multimedia data (YouTube, Pinterest, Facebook etc.)
- Data streams (Twitter, computer networks)
- Spatial data (Road networks, Google Earth, Space etc.)
- Textual data
- Web data
- Big Data
- ...
